

Parkonect Kiosk

A New Era in IoT Parking Equipment

Interactive 16" Touchscreen

Embedded Dynamic Rate Tables

Modular USB Components

360 Degree Cloud Controlled

Limited Moving Parts

No one can predict the future of transportation, but Parkonect can equip your property with powerful, intelligent hardware to thrive no matter what. That's the idea behind the Parkonect Kiosk system.

Our Parkonect Kiosk full PARCS solution advances our industry-leading cloud and QR-code-based ticketing solution to meet the needs of the future consumer. Touchless options including LPR, Text2Enter, AVI and our "out of the box" integrations with third-party partners give you the flexibility you need in the new world of parking.

The hardware's sleek exterior cabinet houses modular USB components for infinite expandability so you can offer customers a completely frictionless parking experience. Plus, with almost no moving parts, Parkonect Kiosk is virtually maintenance-free.

Whatever the shape or size of your facility, the Parkonect Kiosk system will place critical efficiency and revenue-boosting tools at your command.

Parking control in the palm of your hand
